TIME BUDGET

1 Colour Code

Colour code your diary using different colours for different categories. This will help you easily see where and how you are spending your time.

If there's a colour missing - make time for it. If there is too much of one colour - reassess if this is the area of your life you really want to be investing all your energy, money and life into.

2 The 15 Minute Method

At some point everybody has wished they had more time in their day - whether it's for doing chores, sleeping in, catching up with a friend, doing a hobby - the list is endless.

If you want more time back to do the things you love, or be with the people you love, simply start by finding 15 minutes. Get up 15 minutes earlier, go to bed 15 minutes later, spend 15 minutes less on the computer or watching TV. P.S. Prioritise! 😊

3 Productivity

If you are doing the right things, at the right time, for YOU, then you will start to see an amazing level of productivity!

If you are energised and creative first thing in the morning, then don't check your emails!

If you are mopey and tired in the afternoon, then don't force yourself to go to the gym.

Work out YOUR rhythm and work within it.

TESTIMONIALS

Great to complete with your partner to recognise and achieve balance and effective communication as a unit.

— Joanne & Patrick

Life tools, broken down into recognisable and achievable bites, allowing them to be utilised and polished into a balanced and effective life.

— J Sherry

It was really good. Clear, simple, with food for thought without setting expectations ... It is Do-able! And principles that can be practiced in real life situations.

— R Mason

I did the TWO courses today. They were fab, I really enjoyed them. Holding my attention in these things is not easy, I am fast-paced and bore so easily, so the split screen of visuals and Jaye on the side was great!
